

Here we are at the end of the most unusual year in education. We spent the entire year under the dark shadow of the COVID-19 pandemic. The staff of SD6 banded together to keep learning going for every student in the district; whether in class, at home or through continuity of learning, the focus was on student success.

Sir Winston Churchill said, “Never let a good crisis go to waste.” It is this kind of thinking that allows us to look for the unseen benefit in the midst of an unprecedented year in education. It is easy to pick out the negative aspects of the year but recognizing the benefits that arose from the pandemic has advantages.

We learned that learning takes place in many ways and in many places. We learned that hand washing really can help prevent the spread of germs. We learned that staying home when you are not feeling well is a good practice and most of all we learned that together we can overcome anything.

We anticipate that the next school year will bring a sense of normalcy. The summer break will be here soon and we hope that you will have an opportunity to reconnect with family and friends and we look forward to seeing you all in September.

On behalf of the Board of Education and the Senior Staff of the District have a wonderful summer break! Be safe, be healthy and most of all be happy.
